President's Microphone...

Thanks to everyone who participated in the Shut-In Ridge Run November 7th. This event provided a public demonstration of the amateur radio service communications skills. The December meeting, as always, is moved to Saturday, December 5th, at the Candler Masonic Lodge, 6:00PM. Please be there (with covered dish (with food inside)). Hope to see everyone soon.
73 Dean ~ k2jb

BCARES SET

On October 31st, Buncombe County ARES conducted a local Simulated Emergency Test (SET). The exercise included test message handling, tactical communications, repeater/simplex, on/off net operations, and other activities to determine what would work and what wouldn't. One measure of the success of the exercise included formal message handling. Returned messages were compared to the originals after being passed through up to five relay stations, on VHF, 220, and HF frequencies by repeater or simplex operation. NTS (ARRL radiogram) formats were used for the messages. Net Control stations maintained message logging and tracking of station participation/location. The results exceeded our expectations. Station operators relayed messages seamlessly, on frequencies/modes selected by the operators themselves, and returned verbatim every time.

Thanks to the BCARES members who participated in this years exercise and for your interest in local ARES activity.

NCVEC to Release New Technician Question Pool to Public in January 2010

The Question Pool Committee (QPC) of the National Conference of Volunteer Examiner Coordinators (NCVEC) is due to release the new Technician class (Element 2) question pool to the 14 VECs on December 1, 2009; it will be released to the public in January 2010. Each question pool for the three Amateur Radio license classes -- Technician, General and Amateur Extra -- is reviewed on a four-year rotation. This new Technician class pool will become effective on July 1, 2010... The current General class question pool was effective July 1, 2007 and is valid through June 30, 2011. The current Amateur Extra class pool was effective July 1, 2008 and is valid until June 30, 2012.

SB SPCL ARL ARLX012 From ARRL

ARRL Roanoke Division Election...

Roanoke Division Vice Director Patricia Hensley, N4ROS, decided not to seek another term. South Carolina Section Manager Jim Boehner, N2ZZ, of Aiken, and former West Virginia Section Manager Hal Turley, W8HC, of Huntington, were both nominated to succeed her. Boehner won the election with 1692 votes; Turley received 1496 votes. Boehner, first licensed in 1969, holds an Amateur Extra class license. He is a physician specializing in women's healthcare. Boehner has served four terms as the ARRL South Carolina Section Manager. "My original plan [when I was first elected Section Manager] for the South Carolina Section was to expand participation in and unify the ARRL Field Organization in the Section," he said in his position statement. "At this time, we have active participation in all of the major cabinet positions and more than 100 active appointees..."

SKYWARN Recognition Day

The 11th Annual Special Event will take place **Saturday, December 5, 2009**. SRD is co-sponsored by the ARRL and the National Weather Service (NWS) as a way to recognize the commitment made by Amateur Radio operators in helping to keep their communities safe. According to SRD Coordinator David Floyd, N5DBZ, Amateur Radio operators can visit their local participating NWS office, working as a team to contact other hams across the world throughout the 24-hour event...
If you make just one QSO to an NWS office, you are eligible to receive a certificate. Just submit a list of the station(s) you worked to Submit a list of the NWS stations you worked with a self-addressed stamped envelope to SKYWARN Recognition Day, 920 Armory Rd, Goodland, KS 67735. Many NWS offices also send out special QSL cards for this event. If you haven't yet joined in the fun of SKYWARN Recognition Day, make 2009 your year to do so!

WCARS current events

Randy KI4VLW, the 2010 Hamfest Chair, has already put the wheels in motion for this year's hamfest. The SERA Journal will feature a ½ page advertisement and application form for anyone wishing to register in advance of this year's event. Randy is also coordinating a membership drive centered on non-member hams in our WNC area, especially Buncombe County.

Tarheel Net moved to 160m

The Tarheel Emergency Net has been struggling. Net Manager Mark Cantrell, KD4IMA, has announced that effective immediately the net will be moving to 160m. Mark reports "our plan is to start at 1.943, then if we find the frequency in use, move up by 10 kHz increments - 1.953, 1.963, 1.973, 1.983, 1.993. The Tarheel Net will leave a station behind on 3.923MHz at net time to move any potential check-ins who aren't aware of the change.

From NC ARRLSection News

A new UHF repeater is available for use in the WNC area. It is located on the WCQS transmitting tower at about 6100 feet. The frequency is 444.875 (+ Offset, 131.8 Hz tone). It appears to have excellent coverage. In addition to the coverage, another great feature is it is linked into the IRLP network. This lets you talk through linked repeaters all over the world by entering a few digits through your radio's touch-tone pad. To learn more about how to use IRLP and the do's and don'ts, visit www.k4rcc.com and click on the IRLP link.

The owner of the repeater is Russ Crisp, K4RCC. I work with Russ in the IT department at WCU. Give it a try! I'll be monitoring while at home so give me call if you can get in.

73 - Al, WD4A

From KF4PYX via KI4VLW

N4NC is now the callsign for the Cary Amateur Radio Club (CARC), PO Box 53, Cary, NC 27512.

Some of you may remember the callsign as that of Bob Herman, at one time a resident of WNC. A description of Bob's adult activities can be found at the CARC web page: <http://www.qsl.net/n4nc/n4nc.html>.

A few weeks ago, someone mentioned Bob and his callsign on one of the evening nets, and inquired as to whatever happened to Bob, and that he became a silent key. The above link provides a good review of Bob and his radio interests and activities.

ARRL Continuing Education Online Course Registration

Registration remains open through Sunday, December 27, 2009, for these online course sessions beginning on Friday, January 8, 2010: Amateur Radio Emergency Communications Level 1; Antenna Modeling; Radio Frequency Interference; Antenna Design and Construction; Ham Radio (Technician) License Course; Propagation; Analog Electronics, and Digital Electronics.

Each online course has been developed in segments -- learning units with objectives, informative text, student activities and quizzes. Courses are interactive, and some include direct communications with a Mentor/Instructor. Students register for a particular session that may be 8, 12 or 16 weeks (depending on the course) and they may access the course at any time of day during the course period, completing lessons

and activities at times convenient for their personal schedule. Mentors assist students by answering questions, reviewing assignments and activities, as well as providing helpful feedback. Interaction with mentors is conducted through e-mail; there is no appointed time the student must be present -- allowing complete flexibility for the student to work when and where it is convenient. For more information or to register for any of these courses, visit the Continuing Education Program page or contact the Continuing Education Program Coordinator.

Is this the new OSHA warning soon to be required at all operating stations?

WCARS Christmas Dinner

Is set for Saturday, December 5th, 2009, at the Candler Masonic Lodge, 6:00 PM. The regular club meeting will not be held in December. A map of the location is available on the last page of this newsletter.

January Meeting - The next WCARS meeting will be January 7, 2010, at 7:30 p.m. in the Simpson Auditorium, Simpson Bldg, at AB Tech. Program: To be announced.

November 5th Minutes...Bob - WD4CNZ

The November 5, 2009 meeting of WCARS was called to order at 7:31pm by President Dean Blair K2JB.

He invited everyone to join him in the Pledge of Allegiance.

Each attendee was then asked to introduce themselves giving name, callsign, and QTH.

As the Minutes of last month's meeting were printed in SMOKETEST, a motion to wave the reading of the Minutes was received, seconded, and voted to wave.

The Treasurer, Steve Emory N4SET, read the treasurer's report, which was received with thanks.

Dean reported that the WCARS web page is back up and available.

Dean announced a reminder of the Shut-In Race to be held Nov 7 with WCARS members posted at water stops providing communications. He reported that the 146.91 club repeater would be used with 146.105 as backup.

Dean announced the annual Christmas Party would be held Dec 5 at the Masonic Lodge in Candler. Talk-in will use the club repeater (146.91).

Dean announced that membership dues are due in January with the \$20 as the cost and is the same as last year.

Dean showed WA4NUO's "presentation" from the Internet about Ralph Robert's duty in Vietnam. In honor of Veteran's Day, members had been asked to bring a picture of themselves in uniform. Veterans were asked to stand and be recognized and received an ovation from the group.

A presentation of information about the Cash Gregg Award was made by Carl Smith N4AA on the history of the award. Nominations for this year's award were collected by secret ballot.

Nominations for WCARS club officers were announced for 2010 as follows:

President: SCOTT McKAY

Vice-President: CARL SMITH

Secretary: BOB DOCKERY

Treasurer: STEVE EMORY

No other nominations were received and this slate of officers was elected by acclamation.

A discussion about SMOKETEST followed with Carl Smith volunteering to edit SMOKETEST, put it online, and also send printed copies to those members requesting a printed copy.

The PROGRAM for this meeting was presented by Michael KI4WCA. He explained in detail the use/advantages/disadvantages/needed information about the different kinds of storage batteries. He included information about battery life preservation needs, life expectancy, and safety concerns.

The 50-50 prize was drawn and awarded to Linda KJ4CRL.

The door prize was drawn and awarded to Steve N4SET.

Dean concluded by asking everyone to help Randy call hams in the area and invite them to join WCARS in 2010.

The meeting was adjourned at 8:46pm. Refreshments and fellowship followed.

Special Recognition from a ham

On November 10, 2009, Wayland Bradley - K4WS, sent the following e-letter to K2JB:
Hi Dean:

I have been aiming to contact you for some time about the future status of the hamfest. I always come with my wife and bring our son and his family and take the grandkids to the Indian Reservation. We always have gotten accommodations at the Super 8 in recent years.

My wife was a very sick lady when we first came to the Waynesville site together. She had lost a major portion of her colon and it was boiling hot and she was just downright sick. I asked her, after checking in to an empty motel which scared her, to go find the hamfest and "get lost" in daylight the day before and we could not have the same problem Saturday morning! We did and she wasn't too happy. We were actually staying in the Junaluska main drag at the "rocking chair" sign motel on the way to Cherokee.

I pulled up in the parking lot and told her I was going to try to buy tickets. She was hungry also. Your contact people were out and about and the one elderly gentleman, I haven't seen for some time now, told me sure that I could go in and buy tickets and even see the stuff already set up. I was told by my wife not to stay long. I didn't and as I headed to the car, the gentleman asked me if we weren't going to stay for supper? I asked what supper. He explained, and I commented that we didn't know about it and had no covered dish. He smiled and said bring one next year. When I told my wife I had good news for her, she said I bet. We haven't stopped coming to this wonderful fellowship AND great little hamfest since!

I sold what little I had on Friday before supper and there was a problem with tables and you probably remember me "giving", in the end, my table to an obnoxious old codger staying with a friend up in the condos or whatever is above the fairgrounds. My wife helped you with the food work at times if you remember, black headed lady, glasses, etc. Her name is Regena and not a ham. She and I only went to

this one fest every year for a few years now, BECAUSE of the FELLOWSHIP and LOCATION. We slept in Saturday morning and headed back across the mountain to Hot Springs to our favorite diner on the way home. BUT my wife told me that she heard you or others say that this would probably be the last one held there as the fairgrounds had been sold and that the rent was going to be outrageous. I hope that something can be worked out. I have been to the previous locations of the "Asheville" hamfest, and no recollection, but in fairness, it is a reflection. No hamfest in Asheville proper, Leicester, or wherever could ever touch this beautiful serenity of the Waynesville site.

I am just letting you guys know how much we Tennessee 'ns have enjoyed it there, and that we would not be interested in another site as we see Asheville, and most surrounding areas just like you. There is beauty, just like in my hometown here, Greeneville, TN, across the mountain, but not that "vacation" getaway setting of your most recent hamfest site-Waynesville.

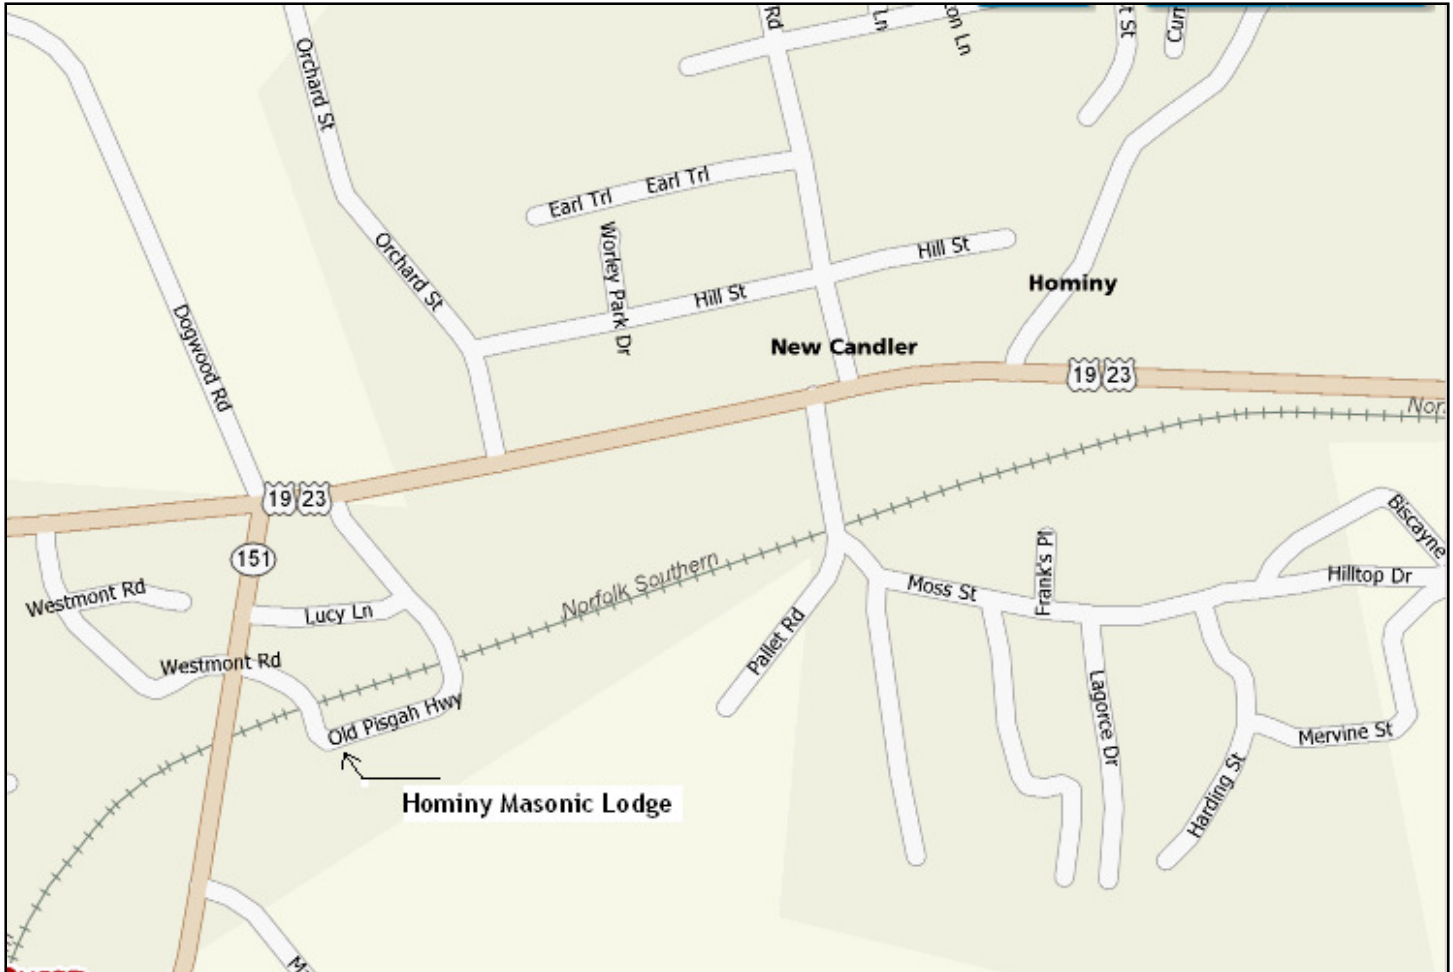

We pray that you can work something out and continue to stay in that area, but if not, thanks for all the memories!

Pardon any spelling errors, grammatical problems but my glasses broke last night! Ha! Getting ready to go get that fixed!

73 and God bless all of you guys and gals in your future decision-making, and I realize as all do that the economy is definitely a factor. Thanks, and we surely will all miss that homemade cornbread and chili! Ha!
Wayland Bradley - K4WS

WCARS enjoyed a successful and prosperous hamfest this year; such positive feedback should encourage us to strive for an even better event this year!

Hominy Masonic Lodge # 491, just off the Pisgah Highway, Candler, NC

Nov-19th BCARES Meeting

The Buncombe County ARES group met on November 19th in the new EOC on Erwin Hills Road, in the section designated for ARES use by the Emergency Management Director, Jerry Ve Haun - WA4GTT. The group familiarized themselves with the layout, location of equipment, routing of cables, features of the area in addition to radio capabilities, etc. Already available for use are HF, VHF, 220 and UHF radios, each with separate power supply.

WA4GTT was able to obtain 100% funding for the antennas now installed. Dave Anderson - K4SV provided all the LMR400 coax, premium grade connectors, and the labor to make all the connections.

Greg - KI4TMD, coordinated the physical installation the antennas, routing of the cables, and other activities connected with bringing the facility up to its current condition (ready for ARES use).

The EOC location comes with generator backup power, internet, Field Station electrical hookups, and other amenities to facilitate essential communications.

The ARES group appreciates the hard work of everyone involved with this effort. The contributions of all those mentioned here cannot be overstated.

K8SKX - Dick Burns, Buncombe County EC
